

# INVITATION

# LASER EUROPE 2014

## 22>24 May

**Grand Hotel Krasnapolsky**  
Amsterdam, The Netherlands

**Laser Europe 2014 will be held in Amsterdam, 22nd – 24th May, 2014. This will be the fourth of the highly successful series of Laser Europe conferences, convened by the European Laser Association in association with major European, and national laser societies.**

Laser Europe has established an impressive track record of high quality presentations and workshops, in addition to a stimulating scientific programme.

This year there will be something for everyone. Pre-congress Masterclasses will be given by internationally-acclaimed experts who will share their knowledge and experience on a wide range of topics, including skin resurfacing, rejuvenation, injectables, hair removal and vascular lesions. By enrolling on the courses, you will have a unique opportunity to ask the questions that really matter to you!

The Scientific Program is diverse and filling up rapidly. You will learn the latest ground-breaking research that is being conducted in all aspects of light and lasers used for diagnosis and treatment. There will be debates on 'Fat tissue concepts: many hate it, can we treat it?', 'Lifting, tightening or filling?' with sessions on subjects such as Photobiomodulation and PDT.

Networking opportunities are important on such occasions. Conference dinner will be at the Harbour Club, a wonderful water-front venue, just right for relaxing after a hard day at the conference.

We look forward to welcoming you to Laser Europe 2014.

Sincerely,

**Claudia van der Lugt** | President, Dutch Aesthetic Laser Association  
**Vakis Kontoes** | President, European Society for Laser Aesthetic Surgery  
**Harry Moseley** | President, British Medical Laser Association  
**Mario Trelles** | President, European Laser Association
